EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wei Te Chung on November 11, 2004.

The application has been amended as follows:

- Please cancel claims 2-5 and 14-17.
- Please amend claims 1 and 9 as follow:

1. A cable assembly adapted for being mounted to a panel, comprising:
an insulative housing defining a mating direction and a longitudinal direction perpendicular to the mating direction and comprising a base and a mating portion extending forwardly from a front face of the base along the mating direction, a pair of mounting ears integrally formed at opposite ends of the base, the insulative housing comprising a bulge and at least one projection respectively located adjacent the front face of the base adapted for engaging with a first face and an opposite second face of the panel, respectively; and
a plurality of contacts received in the insulative housing[.];
wherein the housing comprises a pair of guiding members forwardly extending from the base by two sides of the mating portion, respectively;

Art Unit: 2833

wherein each mounting ear generally aligned with a extends upwardly from an upper face of the base and is corresponding one of the guiding members in a transverse direction perpendicular to both the longitudinal direction and the mating direction;

wherein the at least one projection comprises a pair of projections respectively extending downwardly from the guiding members;

wherein the bulge extends downwardly from the base and is located at a center of the base along the longitudinal direction.

9. An electrical system comprising:

a panel defining a first face, a second face opposite to the first face, a mounting opening extending through the first and the second faces and a pair of mounting apertures located above the opening;

a cable assembly comprising:

an insulative housing comprising a base along a longitudinal direction, a mating portion extending forwardly from the base along a mating direction perpendicular to the longitudinal direction and protruding through the mounting opening of the panel, and a pair of mounting ears located at opposite ends thereof and in alignment with the corresponding mounting apertures, the insulative housing comprising a bulge and a projection respectively engaging with the first and the second faces of the panel adjacent the mounting opening to counterbalance external force exerted on the cable assembly in the mating direction;

a plurality of contacts disposed in the insulative housing; and

Art Unit: 2833

a pair of fastening devices rearwardly extending through the mounting apertures of the panel and the mounting ears of the housing to mount the cable assembly on the panel[.]

wherein the housing comprises a pair of guiding members forwardly extending from the base by two sides of the mating portion, respectively;

wherein each mounting ear generally aligned with a extends upwardly from an upper face of the base and is corresponding one of the guiding members in a transverse direction perpendicular to both the longitudinal direction and the mating direction;

wherein the at least one projection comprises a pair of projections respectively extending downwardly from the guiding members;

wherein the bulge extends downwardly from the base and is located at a center of the base along the longitudinal direction.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a pair of projections respectively extending downwardly from the guiding members and the bulge extends downwardly from the base and is located at a center of the base along the longitudinal direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
